Diabetes Research and Clinical Practice 32 (1996) 195–197

DIABETES RESEARCH AND CLINICAL PRACTICE

Subject index

Volume 32 (1996)

Albuminuria; Morbidity; Mortality; Retinopathy; Type 2 diabetes mellitus **32**, 35

Amputation; Psychology; Foot; Ulceration; Life quality **32**, 19

Anti-GAD antibodies; Chinese; IDDM; Pancreatic β cell function **32**, 27

Antioxidants; Glomerular disease; Proximal tubular disease; Apolipoprotein B; Insulin-dependent diabetes mellitus **32**, 81

Apolipoprotein B; Glomerular disease; Proximal tubular disease; Antioxidants; Insulin-dependent diabetes mellitus **32**, 81

Atherosclerosis; Vasoreaction; Thermography; Cold stimulus **32**, 55

Autoantibodies; Radioimmunoassay; Glutamic acid decarboxylase; Insulin-dependent diabetes mellitus; In vitro transcription/translation **32**, 61

BB/W-rat; Ca^{2+} L-channel antagonist; Nerve conduction velocity; Dorsal root ganglion (DRG) Ca^{2+}-influx **32**, 135

Body mass index; Obesity; Non-insulin-dependent diabetes mellitus; Ideal body weight; Korea **32**, 71

Ca^{2+} L-channel antagonist; Nerve conduction velocity; Dorsal root ganglion (DRG) Ca^{2+}-influx; BB/W-rat **32**, 135

Carnitine deficiency; Glycolytic enzyme; Gluconeogenic enzyme; Gene expression; Juvenile visceral steatosis mice **32**, 117

Catalonia; Type II diabetes; Microalbuminuria; Epidemiology **32**, 157

C57BL/KsJ-*db*/*db*; Obese-hyperglycemic mice; Clonal beta-cell line; Islet transplantation; Fatty liver **32**, 125

Children; Diabetes mellitus; Microalbuminuria; Macular recovery time **32**, 149

Children; Summer camps; Type I diabetes; Self-management practices **32**, 91

Chinese; Anti-GAD antibodies; IDDM; Pancreatic β cell function **32**, 27

***Chlamydia* antibodies**; Non-insulin-dependent diabetes mellitus (NIDDM); Metabolic control; Serum immunoglobulin levels; Infection **32**, 97

Clonal beta-cell line; C57BL/KsJ-*db*/*db*; Obese-hyperglycemic mice; Islet transplantation; Fatty liver **32**, 125

Cold stimulus; Vasoreaction; Atherosclerosis; Thermography **32**, 55

Diabetes in India; NIDDM; Retinopathy; Microangiopathy **32**, 111

Diabetes mellitus; Children; Microalbuminuria; Macular recovery time **32**, 149

Diabetes mellitus; Laminin; Diabetic microangiopathy **32**, 45

Diabetes mellitus; Metabolic control; Foot pathology **32**, 103

Diabetes; Mitochondrial function; Glucocorticoids; RU 38486 **32**, 141

Diabetes; NIDDM; Glucagon receptor gene; Mutation **32**, 183

Diabetic microangiopathy; Diabetes mellitus; Laminin **32**, 45

Diabetic nephropathy; ICAM-1; NIDDM **32**, 1

Dorsal root ganglion (DRG) Ca^{2+}-influx; Ca^{2+} L-channel antagonist; Nerve conduction velocity; BB/W-rat **32**, 135

Epidemiology; Type II diabetes; Microalbuminuria; Catalonia **32**, 157

Fatty liver; C57BL/KsJ-*db*/*db*; Obese-hyperglycemic mice; Clonal beta-cell line; Islet transplantation **32**, 125

Foot pathology; Diabetes mellitus; Metabolic control **32**, 103

Foot; Psychology; Amputation; Ulceration; Life quality **32**, 19

Gene expression; Glycolytic enzyme; Gluconeogenic enzyme; Juvenile visceral steatosis mice; Carnitine deficiency **32**, 117

Glomerular disease; Proximal tubular disease; Apolipoprotein B; Antioxidants; Insulin-dependent diabetes mellitus **32**, 81

Glucagon receptor gene; NIDDM; Diabetes; Mutation **32**, 183

Glucocorticoids; Diabetes; Mitochondrial function; RU 38486 **32**, 141

Gluconeogenic enzyme; Glycolytic enzyme; Gene expression; Juvenile visceral steatosis mice; Carnitine deficiency **32**, 117

Glutamic acid decarboxylase; Autoantibodies; Radioimmunoassay; Insulin-dependent diabetes mellitus; In vitro transcription/translation **32**, 61

Glycolytic enzyme; Gluconeogenic enzyme; Gene expression; Juvenile visceral steatosis mice; Carnitine deficiency **32**, 117

Hemoglobin A1c; Standardization; Immunoassay **32**, 175

Humans; Plasma endothelin-1; NIDDM; insulin **32**, 187

ICAM-1; Diabetic nephropathy; NIDDM **32**, 1

IDDM; Anti-GAD antibodies; Chinese; Pancreatic β cell function **32**, 27

IDDM incidence; NIDDM incidence; Libya **32**, 165

Ideal body weight; Obesity; Non-insulin-dependent diabetes mellitus; Body mass index; Korea **32**, 71

IGF-I; TNF-α; MAP kinase; L6 myoblasts **32**, 11

Immunoassay; Hemoglobin A1c; Standardization **32**, 175

Infection; Non-insulin-dependent diabetes mellitus (NIDDM); *Chlamydia* antibodies; Metabolic control; Serum immunoglobulin levels **32**, 97

Insulin-dependent diabetes mellitus; Autoantibodies; Radioimmunoassay; Glutamic acid decarboxylase; In vitro transcription/translation **32**, 61

Insulin-dependent diabetes mellitus; Glomerular disease; Proximal tubular disease; Apolipoprotein B; Antioxidants **32**, 81

insulin; Plasma endothelin-1; Humans; NIDDM **32**, 187

In vitro transcription/translation; Autoantibodies; Radioimmunoassay; Glutamic acid decarboxylase; Insulin-dependent diabetes mellitus **32**, 61

Islet transplantation; C57BL/KsJ-*db*/*db*; Obese-hyperglycemic mice; Clonal beta-cell line; Fatty liver **32**, 125

Juvenile visceral steatosis mice; Glycolytic enzyme; Gluconeogenic enzyme; Gene expression; Carnitine deficiency **32**, 117

Korea; Obesity; Non-insulin-dependent diabetes mellitus; Body mass index; Ideal body weight **32**, 71

Laminin; Diabetes mellitus; Diabetic microangiopathy **32**, 45

Libya; IDDM incidence; NIDDM incidence **32**, 165

Life quality; Psychology; Amputation; Foot; Ulceration **32**, 19

L6 myoblasts; IGF-I; TNF-α; MAP kinase **32**, 11

Macular recovery time; Diabetes mellitus; Children; Microalbuminuria **32**, 149

MAP kinase; IGF-I; TNF-α; L6 myoblasts **32**, 11

Metabolic control; Diabetes mellitus; Foot pathology **32**, 103

Metabolic control; Non-insulin-dependent diabetes mellitus (NIDDM); *Chlamydia* antibodies; Serum immunoglobulin levels; Infection **32**, 97

Microalbuminuria; Diabetes mellitus; Children; Macular recovery time **32**, 149

Microalbuminuria; Type II diabetes; Epidemiology; Catalonia **32**, 157

Microangiopathy; NIDDM; Retinopathy; Diabetes in India **32**, 111

Mitochondrial function; Diabetes; Glucocorticoids; RU 38486 **32**, 141

Morbidity; Albuminuria; Mortality; Retinopathy; Type 2 diabetes mellitus **32**, 35

Mortality; Albuminuria; Morbidity; Retinopathy; Type 2 diabetes mellitus **32**, 35

Mutation; NIDDM; Glucagon receptor gene; Diabetes **32**, 183

Nerve conduction velocity; Ca^{2+} L-channel antagonist; Dorsal root ganglion (DRG) Ca^{2+}-influx; BB/W-rat **32**, 135

NIDDM; Glucagon receptor gene; Diabetes; Mutation **32**, 183

NIDDM; ICAM-1; Diabetic nephropathy **32**, 1

NIDDM incidence; IDDM incidence; Libya **32**, 165

NIDDM; Plasma endothelin-1; Humans; insulin **32**, 187

NIDDM; Retinopathy; Microangiopathy; Diabetes in India **32**, 111

Non-insulin-dependent diabetes mellitus (NIDDM); *Chlamydia* antibodies; Metabolic control; Serum immunoglobulin levels; Infection **32**, 97

Non-insulin-dependent diabetes mellitus; Obesity; Body mass index; Ideal body weight; Korea **32**, 71

Obese-hyperglycemic mice; C57BL/KsJ-*db*/*db*; Clonal beta-cell line; Islet transplantation; Fatty liver **32**, 125

Obesity; Non-insulin-dependent diabetes mellitus; Body mass index; Ideal body weight; Korea **32**, 71

Pancreatic β cell function; Anti-GAD antibodies; Chinese; IDDM **32**, 27

Plasma endothelin-1; Humans; NIDDM; insulin **32**, 187

Proximal tubular disease; Glomerular disease; Apolipoprotein B; Antioxidants; Insulin-dependent diabetes mellitus **32**, 81

Psychology; Amputation; Foot; Ulceration; Life quality **32**, 19

Radioimmunoassay; Autoantibodies; Glutamic acid decarboxylase; Insulin-dependent diabetes mellitus; In vitro transcription/translation **32**, 61

Retinopathy; Albuminuria; Morbidity; Mortality; Type 2 diabetes mellitus **32**, 35

Retinopathy; NIDDM; Microangiopathy; Diabetes in India **32**, 111

RU 38486; Diabetes; Mitochondrial function; Glucocorticoids **32**, 141

Self-management practices; Children; Summer camps; Type I diabetes **32**, 91

Serum immunoglobulin levels; Non-insulin-dependent diabetes mellitus (NIDDM); *Chlamydia* antibodies; Metabolic control; Infection **32**, 97

Standardization; Hemoglobin A1c; Immunoassay **32**, 175

Summer camps; Children; Type I diabetes; Self-management practices **32**, 91

Thermography; Vasoreaction; Atherosclerosis; Cold stimulus **32**, 55

TNF-α; IGF-I; MAP kinase; L6 myoblasts **32**, 11
